TECHNICAL SKILLS

Proficient: JavaScript • Node.js • React • Redux • Git • Express.js • Axios HTTP • bcrypt • Sequelize • PostgreSQL
Microsoft Office Salesforce • Google Analytics • Figma • HootSuite
Knowledgeable: HTML5 • CSS3 • Phaser.js • AGILE • NPM • JsonWebToken
Familiar: TDD • Jasmine • Mocha • Chai • Babel • Webpack • Heroku

PROJECTS

Bone To The Past , *Fullstack Developer*   **January 2022 – Present**
Tech Stack: *Node.js, Phaser 3, Tiled, TexturePacker*
- Utilized Phaser framework for HTML5 games to create a 2D side-scrolling web browser game, *Bone to The Past*. Working in a loop that processes game input, provides real-time updates, and renders changes to UI & Play scenes.
- Employed Tiled to create custom maps to upload to Phaser to build game levels.
- Created sprite sheets for the game's protagonist and antagonist (assets) with TexturePacker, leveraging the Zopfli compression algorithm to retain the asset's small size.

Kincare, *Fullstack Developer*   **December 2021 – Present**
Tech Stack: *Node.js, Express.js, React, Redux, Sequelize, PostgreSQL*
- A Full-Stack E-Commerce site for purchasing skin care products that nourish, epitomize, and celebrate the black community.
- Employed both React & Redux, to create persistent cart features for both returning secured (Oauth) Users and Guest Users; where they can add a single product component.
- Built RESTful API's for Admins & Users, Admin has full CRUD access for inventory and Users allowed to successfully process transactions.
- Co-lead a 2-week sprint using **agile** methodology workflow while working together on a team of 3 full-stack engineers.

WORK EXPERIENCE

Port Authority New York and New Jersey, *Social Media Specialist*   **November 2018 – Present**
- Partnered with local, state, and federal regulators to mitigate deficiencies, increase response times during crises, and escalate critical feedback and knowledge via social media to key stakeholders.
- Developed communication plan utilizing 9 social media pages to bring awareness of the changing redevelopment, operations, and regulatory landscape of both JFK and LGA.
- Field high volume of diverse tickets from consumers, business units and stakeholders then identify and implement solutions and opportunities for enhancements and improvements.
- Developed and maintained reporting tools for monitoring social media content across several platforms, implementing bi-weekly audits to identify opportunities to streamline social media strategies and campaigns.

Starbucks, *Shift Supervisor*   **June 2017 – December 2018**
- Facilitated new staff training, communicating successful techniques for performing duties increasing the amount of Barista Trainers in-store by 50%.
- Collaborated with store management to provide continuous feedback on assigned staffing, best practices, and inventory systems to eliminate bottlenecks.

EDUCATION

Fullstack Academy   *Certificate in Software Engineering*
NYC (Tech Talent Pipeline): Future Code Fellow   *Winter 2021*
New York University   *Bachelor of Arts in Economics*
Concentration: Economics   *Summer 2020*
